

# Building a List and Promoting an Affiliate Offer (Funnel (Flowchart / Checklist)

## Setup Procedure

- ☐ Download page templates & eCourse from SMC members area listed under replay.
- ☐ Import correct pages in to your preferred page builder. (Elementor or Instabuilder)
- ☐ Record the confirm and confirmed page url's in text editor like notepad.
- ☐ Create new list in your preferred autoresponder and use "confirmed" page url as the custom confirmation thank you page.
- ☐ Use double optin in your autoresponder and modify confirmation message if needed.
- ☐ Load the eCourse as 5 autoresponder follow-up messages to be delivered 1 day apart.
- ☐ Create a new form for this list and insert the "confirm" page url as custom thank you page that subscribers are taken to after submitting name/email.
- ☐ Copy the html form code and replace optin code in "register" page with your code.
- ☐ Update the affiliate link on the "confirmed" page to SMC with your affiliate link.
- ☐ Go to the register (optin) page and test by entering your name and email address.

Note: If you need to test again after initial test you will need to delete your email address from your autoresponder or it will not send you the confirmation email again.

**Congratulations!!! You are now ready to send traffic to your 5 Day eCourse.**
